Snow Removal

You can assist with snow removal in several ways:

- * Residents are not to blow or shovel snow into city streets or allow private contractors hired to plow their driveways to do so.
- * All vehicles must be moved from the street when an accumulation of snow is expected to allow plowing while preventing vehicles from being buried or damaged.
- * For safety, stay as far away from snow plows as possible.
- * Keep children away from snow plows.
- * Keep parked cars off the street during snow events.
- * Do not attempt to pass a snow plow.
- * Do not attempt to drive through deep snow.
- * Keep sidewalks clear of snow and ice.

To provide a more thorough and quicker snow removal service, residents are reminded not to park their vehicles on the street after a snowfall.

By Ordinance, residents and businesses are required to keep their sidewalks in repair and free of ice, snow, debris, and obstructions.

2020 Special Trash Collection

The items to be included in this special collection are general household discards **from city residences only**. Because of escalating cost, landfill restrictions and the use of packer trucks for collection, the following regulations and prohibited items will be strictly enforced for this collection. **Each residence will be limited to a maximum of 60 cubic feet of discards**, this is equal to the amount that can be put at one time into the hopper of the collection truck.

Please note the following items are prohibited and will not be collected: **mattresses, appliances, refrigerators, stoves, water heaters, stools, sinks, tires, batteries, tree limbs and brush, leaves, yard waste, railroad ties, building materials that are not boxed or bundled, concrete, brick and stone debris, metal fencing, motor blocks, transmissions and auto body parts, pressure containers, liquid waste and hazardous materials including paint and motor oils. Paint cans must be empty and/or paint dried out.** Special tags are available for separate disposal of these items. Tags can be purchased at the Celina utilities Office any time.

The special trash collection will be held Saturday of each week per the following schedule:

- **Saturday, April 4; the regular Monday route**
- **Saturday, April 11; the regular Tuesday route**
- **Saturday, April 18; the regular Thursday route**
- **Saturday, April 25; the regular Friday route**

In order to participate in this collection, your trash must be placed adjacent the street by 6:30 a.m. the day your area is scheduled for pickup. There will be no callbacks or extension of pickup dates.

An effort should be made by all to keep our community looking neat. No items should be placed out more than 72 hours in advance of your scheduled pickup day. Any resident with trash lying out before the Wednesday prior to their pickup date will be cited.

Materials not collected because they were set out too late or on the wrong day or did not follow the regulations herein stated will be the responsibility of the property owner to dispose of. The City and/or contractors shall not accept responsibility for lost or misplaced items.

Non-city residents found dumping trash within the city and/or scavengers will be cited for littering.

REMEMBER: It must be boxed, bagged or tied in a bundle that can be picked up by one person, or it will not be picked up.
